PRESENT  
LANDSCAPE DESIGN SCHOOL**

Since its founding in 1958, professional instructors have maintained the high standards originally incorporated in the landscape design study program. Students acquire the tools for making their own gardens more beautiful and easier to maintain. Students have been motivated to serve in political decision-making areas where awareness of the impact of a well-designed landscape can enhance the beauty and enjoyment of life in the public arena.

Landscape Design School has a curriculum that covers a wide range of subjects, from landscape design history to landscape architecture in the year 2000 and beyond .

**Required Reading:** *Stewards of the Land*, by Alaimo, DeVeer, Carpender

An article from the bi-annual NGC Landscape Design Newsletter, *Newscape*, will also be required. Find online at [www.gardenclub.org](http://www.gardenclub.org)
